Ad Lectorem.

Courteous Reader;

AS the Almighty has enabled me to appear on the World's Theatre for the active and industrious Year of Man's Redemption 1698. so I have endeavour'd to render some modest and impartial Conjectures of the Transactions of the same. At the composing of this, the major part of the Nation were in great Expectation of a general PEACE in Europe; and to elevate and encourage our Hopes and Expectations, all our News continued to assure us that the French King press'd harder than ever for its speedy Conclusion; so that, humanly speaking, all the Matters and Articles relating to that great Affair may be adjust'd and brought to a happy Period, if the Lord pleases, in a short time. 'Tis well known that the Jacobites, and the other Enemies of the present Government, daily expected Disagreements and Insurrections among our selves through the many Difficulties and Calamities that we were likely to encounter upon the recoining of our Money; but, thanks be to Heaven, without success: whilst we on the other hand, are again capable not only of surmounting those Misfortunes, but likewise of opposing the most daring Enemies, Domestick or Foreign. What Kingdom on Earth but England could recoin all their Cash, and yet engag'd in a powerful War? Is there any Realm in Europe can do the like? Surely by this Nation's Naval Force, Situation and Commerce, as well as by the Wisdom and Cunnance of her present MONARCH, 'tis no Presumption to say they conspire together to make her Territories the great Umpire of all Europe. Therefore since 'tis our happiness to inhabit this plentiful Soil which flows with all manner of Necessaries for Soul and Body, and blest with so just a Prince to defend it, we can neither quit our selves of being a most ungrateful People, nor yet expect God's future Blessing on our Endeavours, if we be not loyal and obedient Subjects, live in Love and Tranquillity with each other, and constantly make returns of due and humble Acknowledgments for such great and unparallel'd Favours.

This from a true Lover of his Native Country, while he is,

27 Julii 1697.

All hail Great NASSAW England's Mighty KING,
 Whose Name and Fame will through all Ages ring.
 Of all the MONARCHS th' English yet well know,
 The two late Reigns e'ne wrought their Overthrow:
 But GOD in Mercy (who supports their Cause)
 Sent them Great NASSAW to redeem their Laws.
 May their REDEEMER's Glory scale the Sky,
 And his true Worth survive Eternity.

January hath XXXI Days

Rejoice all Loyal Souls with one Accord,
 The All-wise God is sheathing up the Sword:
 Instead of War PEACE will proclaim the way;
 Thrice happy then are they who see that Day:
 The glorious Stars too (Mankind's Bliss increase)
 Will all triumph at Europe's blessed PEACE.

Observations.

Δόξα καὶ Ἐκταύτης Ὁρῶ.

This famous Year, and the Month of *January* are usher'd in with the *Sextile* of the *Sun* and *Jupiter*. The Aspect is benevolent, and 'tis hoped that the Effects may be as friendly: the Royal *Monarch* of the Heavens this Month very bountifully befriends both *Jupiter* and *Mars* with amicable Rays. Some of the deserving *Clergy* of *England*, as well as the *Lawyer* and *Swords-Man*, will participate of the Favours and Bounty of his Majesty *KING WILLIAM*. The Affairs of the Kingdom in relation to the Government go on very sweetly with Peace and Union. Those that were our open Enemies, are now our pretended Friends. The Trade of the Nation begins to flourish.

Concordia est optima rerum.

The glorious Planet *Venus* will be our bright Morning-Star, from the beginning of the Year till the 7th day of *April*, at which time she conjoins with the *Sun*, and becomes our glittering Evening-Star to the Year's end.

February hath XXVIII Days

The two grand Tories of the Azure Sky
Do court each other with much Amity:
Their Friendship's great, whate'er thereby is meant;
For Mars does backward move in's Complement.

When Knaves and Cheats resolve their Wits to try,
All Stones are turn'd to act their Villany.

Observations.

Tempus habent omnia.

'Tis true, some of our Enemies seem friendly, yet others continue their Rancor and Spleen in Plotting and dispersing of malicious pamphlets against the Government: Let 'em call to mind the fate of some of their Fraternity. Mars transiting the Ascendant of the Brumal Ingress, denotes some Commotions and Disturbances to the vulgar or common People; but the *Trines* of Venus and Saturn to that angry Star will in great measure abate his dire Influence. The *Conjunction* of Saturn and Venus menaces a certain Lady, or some great Personage of the Realm with Death, or a deep Melancholy. The Affairs of England continue in good order. Great Consultations are now under Debate or Deliberation concerning Articles, or the Peace of Europe, which will have a good Conclusion. Good News for our Merchants.

Note, The Roman Account is always Ten Days before the English so that their 11th day is our first, their 20th our 10th, &c.

March hath XXXI Days.

Great Sol and Mars exert contentious Rays,
Which will disturb poor Mortals many ways:
Venus and Mars project as hateful Beams,
Mavors and Stilbon too are for Extreame.

Mankind's sick, yet Jove's Trine to Venus can
afford fit Means to help diseased Man.

Observations.

Tempora mutantur.

The Heavens at the beginning are calm and favourable, but about the middle and latter end turbulent and violent. 'Tis hoped that the Affairs of Europe as to the Wars by this time are too well settled to be alter'd by these Influences. The Square of Mercury and Jupiter discover much Treachery and base Actions about this time. Some are publishing scandalous Libels, and promoting Sedition and Conspiracy. Some are making false Money and counterfeiting our Coin, but all will be punished. The Sun's Trine to Jupiter promises both Honour and Preferment to some Person or Persons out of favour some time. The angry Planet Mars plays his part this Month to purpose; he afflicts the Sun, Venus and Mercury by an hostile Opposition, which threatens our Merchants with Losses at Sea, our Roads to be molested with Highway-men, and our Houses infested with Rogues and Thieves at home.

April hath XXX Days.

Old fullen *Saturn* on fair *Venus* lowers ;
 From whence expect some cold and sturdy Showers.
 Bright *Jove* and *Hermes* make sad Harmony,
 And *Chronus* frowns as ill on *Mercury*.

The grand Effects of such bad Rays will ring,
 'Cause they denote much Mischief to the Spring.

Observations.

The end of the last Month presents us with an invisible, tho great Eclipse of the Sun in the Sign Aries, under which are the Kingdoms of Denmark, England, Germany, &c. 'Tis doubted some of the Mischiefs prefiged by the Aspects of Mars may happen in this Month, those Malignant Rays mightily excite Men to Oppression and Violence. We shall hear of many Duels and strange Quarrels, as well as great Crimes, and Accusations against Offenders. 'Tis ten to one but some of our false Money-makers will share of the Effects. In short, we are like to have a Redundancy of Villany acted in several Places about these Times. The High-ways will be plagu'd with Robbers. Our murmuring Party are in great Confusion; and to back these fine doings, the end hereof produces a whole Croud of contentious Rays, from whence may proceed as evil Effects.

May hath XXXI Days.

If great Conjunctions of great Stars preface
Great Actions and Mutations on Earth's Stage,
Jove's Square to Chronus will exert a share,
And with as mighty things will interfere.

The glutting of the Sword makes thousands mourn;
Yet Church and Church-Affairs will have their turn.

Observations.

The evil Rays and Positions of the last Month will hatch many Mischiefs to be perpetrated and acted in this. The *Male-Contents* of the Kingdom are full of Projects and wicked Contrivances to estrange and amuse the Credulous, but *mihi videtur*, their Game is at the best; instead of magnifying the Power of *France*, and the *Heroick* Actions and Warlike Exploits of the *French King*, they will now as much exclaim against his Proceedings, especially if the Peace of *Europe* be concluded. 'Tis ten to one but some of the *Long Robe* will fall under the Displeasure of their Prince; 'twill be of an ill Consequence. Others again will be receiv'd into favour, and prefer'd to Posts of Honour and Profit.

The Affairs of some Counties and Places go retrograde. *Saturn* now transits the opposite place of his *Conjunction* with *Jupiter* in *Leo*, Anno 1682, &c. and comes to the *Square* of *Jove* at the same time. *Rome*, *Italy*, &c. will feel the Effects.

June hath XXX Days.

Mavors and Titan do each other square,
 Stilben and Mars in the same Aspect are;
 Whence Thunder, Lightning, Duels, Wounds and Scars,
 As Consequents of such Celestial Jars,
 While Venus and Jove's Trine friendly prepares
 Some curious Salves to medicate the Sores.

Observations.

The Councils and Affairs of some Nations Eastward are yet at a stand. The fixed and retrograde Square of *Saturn* and *Jupiter* in the last Month from *Scorpio* and *Aquarius*, confirms the aforesaid Judgment, and doubtless will have a share in the Concerns of the World both in Church and State: Such Configurations always denote various Actions, Turnings and Windings in those Places where their Influences happen. If the Sign *Leo* be the Ascendant of *Rome*, undoubtedly that City and the Inhabitants thereof will much participate of the Effects of *Saturn's* transiting the Sign *Aquarius*, and of this Position, viz. his Square to *Jupiter*; He's a Planet naturally evil, and his Transits are very tedious, ergo, the more injurious to Mankind. The Influence of these Superiours has chiefly operated since their great Conjunction on the Affairs of the War, because *Mars* stepped in for a share; but for the future it will be spent on Matters Ecclesiastical.

July hath XXXI Days.

The two Superiours 'gain do occupy
 The fourth part of the Starry Canopy;
 In two Months only two such fixed Squares
 Must needs create vast multitudes of Snares:
 Yet if Man prays, and of his Sins repent,
 The all-good God will avert the Event.

Observations.

This Month of *July* produces the last Square of *Saturn* and *Jupiter* from fixed Signs *Scorpio* and *Aquarius*, and in *May* 1702. they will be in *Conjunction* in the Cardinal Sign *Aries*, the Horoscope of *England*, and fiery Trigon; 'twill be a famous Congress, and will concern all Persons under that Constellation; moreover, it will greatly advance Monarchy. At the *Astival* Ingress *Saturn* occupied the *Medium Coeli*, and *Jupiter* the 6th Angle; the first is the Mission of Magistracy and Government, the latter of Diseases and Sickness. This unkind Position stirs up as unkind Ferments in the Juices of Man's Body, from whence proceed strange Diseases very mortal to Mankind. God preserve us from the Plague, or any Epidemick Malady: Besides, it presages many long Debates and great Turnings on the Anvil of the World, as well concerning the Government and Power of some Nations, as Affairs Ecclesiastical, or the changing of Religion, &c. The Month ends with Impeachments, &c. against divers Persons, as also with the Death of some Great Man, whose End will be lamented.

August hath XXXI Days.

The most material Congress happ'ning, here
Is the *Conjunction* of *Mars* and *Jupiter*:

Mars in his progress transits *Saturn's* Square,
Which ruffling Aspect much disturbs the Air;

Both these consider'd do foretel some Harms,
As Inundations, Shipwracks, Tempests, Storms.

Observations.

Some of the evil and turbulent Rays of the last Month will operate in this, especially the *Square* of *Jupiter* and *Saturn*, the *Opposition* of the *Sun* and *Saturn*, and the *Opposition* of *Mercury* and *Saturn*, which with the *Square* of *Jupiter* and *Mercury* at the beginning of this Month may create as many *Chimera's* and *Whimsies* in Man's Brain, as they may Clouds, Thunder, Wind, and Rain in the Air. 'Tis very probable we shall hear of great things acted and transacted in the World about this time. Mutations and Removes among Persons of Power. Some are impeach'd of high Crimes, others discovered and apprehended for publishing seditious and scandalous Papers. The *Square* of *Saturn* and *Mars* (those curious Sparks for Mischief) this Month from fixed Signs does mightily invenom all such pernicious Practices, adding Fuel to the Fire. We shall also hear of many *Duels* and *Murders*, and of the Detection of many false *Coiners* and *Money-makers*, as well as of *High-way Robbers*, and the like.

September hath XXX Days.

Jove's now direct, and courts the Queen of Love;
Sol's Trine to Saturn will as kindly prove:

Chiron, and Stilbon too afford Content:

Mars and Titan presage the like Event.

Such friendly Beams, yea most pacifick Rays

Denote Commerce, much Health and happy days.

Observations.

The end of the last Month produced a Conjunction of Mars and Jupiter in the Celestial Sign Scorpio: Mars no sooner passed from the Square of Saturn, but immediately join'd with Jove. It concerns both the *Macrocosm* and *Microcosm*; but particularly those Persons that have their *Ascendant*, *Midheaven*, *Sun* or *Moon* in their Genitures near the 22 deg. of the aforesaid Sign, will chiefly suffer in their Persons, Reputations and Affairs. This famous Congress happening in the Mansion of Diseases at the Aestival Ingress, denotes not only Sickness and Infirmities to Mankind, but also to Sheep, Hogs, &c. as likewise Storms, Tempests, Shipwracks and Inundations in the Northern Parts and Places near the Sea, with Death of Fish and Fowl, and other Calamities and Misfortunes, too tedious to be inserted. The Aspects of this Month are benevolent and calm, and consequently the Effects as friendly.

October hath XXXI Days.

Here *Stilbon* and great *Mavors* both are free,
That *Chronus* and fair *Venus* should agree;
The *frigid Sire* falls with the *Lady's Charms*
To be embrac'd in her delightful Arms.

Such friendly Rays Felicity presage,
With other Blessings in this sinful Age.

Observations.

As the Rays and Configurations of the Celestial Bodies in the last Month were very gentle and mild, so they are in this Month, from whence may be expected as mild and gentle Influences. Both these Months produce very seasonable Weather for the industrious Farmer to conclude the Harvest, and to gather together the Earth's Products. The Grandees of most Nations as well as the vulgar Men are inclin'd to Peace and Union. Matters of great Concern are now under Consideration which tend to the Safety and Prosperity of the Kingdom. Good News arrives for our Merchants of the safe Return of their Ships. God grant that the Transit of *Mars* through *Sagittary* (the opposite Sign to the Ascendant of *London*) does not leave any of his evil Atoms on that City, or its innumerable Inhabitants.

November hath XXX Days.

The two Superiours are again direct;
 Bright *Jove* and *Sol* conjoin to good Effect.
Hermes that crafty, active, nimble Star,
 Against old *Chronus* proclaims a Paper War.
 Nature her self by all things lets us know
 The greatest Wheels of Fate move always slow.

Observations.

Fiat Voluntas Dei.

The Aspects and Rays of this Month are for the most part benevolent: May the Effects of such Influences ever attend the People of *Great Britain and Ireland*. Indeed of late Years they have been very uneasy and out of Humour (being fill'd with vain Fears) but the propitious and friendly Beams of the Stars for several Months together, will animate and revive their melancholy and drooping Spirits, by a general increase both of *Loyalty and Union*, as well as *Trade and Commerce*, insomuch that much Satisfaction and Content may be seen in the *Physiognomies* of most Persons of what degree or quality soever. The *Square of Saturn and Mercury* discovers much Treachery and Baseness acted by several against their Master's Interest, as also the Authors of some scurrilous *Pamphlets and Papers* published to disturb the Government, and those in Authority.

Anguis latet in Herba.

December hath XXXI Days.

Were all Great Britain's Sorrows which appear,
So near Conclusion as this active Year,
The Land wou'd flourish, Fortune's Sun wou'd shine,
And each contented under his own Vine.

All Albion's Natives then wou'd thrive amain,
And never more of Taxes wou'd complain.

Observations.

In sese volutur Annus.

The Celestials are all direct in Motion, and the Affairs of most Kingdoms and Nations go on very pleasantly; there are no Divisions or Animosities at present in their Councils and Debates. As 'tis a season fitter for Consultations than publick Actions, or any Martial Concern, so the *Sextiles* of *Mars* and *Jupiter*, as also *Jupiter* and *Venus*, will the more influence all their Meetings and serious Considerations, whether in *Diets*, *Synods* or *Parliaments*, with Peace and Tranquillity. The Month ends with a *Conjunction* of *Saturn* and *Mars* in the fixed Sign *Aquarius*, which will be a Congress of pernicious Signification to the City of *Rome*, and its Inhabitants. And so God save KING WILLIAM, and grant him a long Life and happy Reign, with an entire Victory over all his Enemies.

*All Nations will most joyful be
 Shew'd this Year prove their Jubilee.*

OBSERVATIONS, 1698.

A compendious or brief Judgment Astrological, on the general Affairs of Europe, for the present Year, 1698, as well from the Solar Eclipses, as the Brumal, Vernal, Estival and Autumnal Ingresses of the Sun into the Cardinal Points; as also from the mutual Syzygies, Transits and Configurations Concomitant with in the Perimeter of this Year's Resolution.

I. Of the ECLIPSES.

THe learned Kepler, that famous Astronomer, presents the World with an Axiom, that if it should so happen that there be two central New Moons, the one before the Sun's Apogæon, the other after it, there can be no Eclipse of the Full Moon that Year, which Axioma or Aphorism now takes place, for, according to our *English Ephemerides*, we shall have but two Eclipses only this Year, and both will be of that great Luminary the Sun; one of them happens 78. Degr. before the Sun's Aphelion, or Apogæon, the other when he is 94 Degr. past it. The Eclipses will be as followeth:

The first Eclipse of the Sun will be 31 Day of March, in about 21 Degr. of the Cardial and Equinoctial Sign Aries; but inconspicuous to us, because 'twill be celebrated just about the Sun's setting in our Horizontal Circle: However, our Author tells us, that the Eclipse will be great, and happens near the place of the Sun's Exaltation. 'Tis the Opinion of the Learned in this Science, That great Eclipses are always the *Prodromi* of great Changes, and Mundane Mutations. You may be sure that the great God, and Nature never obscur'd the Lights of these glorious Bodies for no purpose. Great Causes undoubtedly will have as great Effects: Moreover, 'tis observed, That whereas Solar Eclipses have an Influence on all Conditions and Qualities of Men, yet, in particular, great Eclipses of the Sun are always Ominous to Kings, Princes, and great Male Personages; so likewise the Moon, altho' the Influence of her Eclipses falls chiefly on the common People, or vulgar Man, yet her Defects are ever fatal to Princesses, and other great Female Personages of the Land. This Deliquium happens in the Moon's south Node, near the Angle of Strife and Contention, and attended by the Opposition of Mars and Mercury, which discovers many Mischiefs acted by the Kingdom's Enemies; false Coiners, and such-like Persons will receive their just Reward. 'Tis celebrated in the Horoscope of England, which is a Sign or Constellation of the fier

OBSERVATIONS, 1698.

Trigon or Triplicity, as well as the domal Dignity of the fiery Planet *Mars*; as it falls in this Triplicity, it naturally fore-shews fiery Exhalations and Meteors in the Air, Thunder, Lightning, Corruscations, with great Heats and Droughs, as also Thefts, Murthers, burning and pestilential Feavers, Burning of Houses, Towns and Cities, with other Calamities, too tedious to mention here.

The second *Eclipse* of the *Sun* will be 24th Day of *Septemb*, about 4 of the Clock in the Morning, in 11 Degr. of the Cœlestial Sign *Libra* or the *Ballance*. This *Eclipse* likewise will be great, but more inconspicuous to us than the former, the *Sun* being more beneath the *Horizon*. This happens in the second Mansion in a Sign of the fiery *Trigon*, which presages stormy and tempestuous Weather, vehement Winds, Shipwracks, Thunder, Lightning, and pestilential Diseases, *cum multis aliis*. Although both these *Eclipses* are invisible to the *English* Inhabitants, 'tis wished they may not participate of the Effects, as one *Eclipse* happens in the Kingdom's Ascendant, so the other in a Sign opposite to it; yet as the Cœlestial Bodies are in such friendly Beams to each other, they'll in a great measure Mitigate the impending Evils, signified by these *Eclipses*. Let the Cœlestial Scourge for ever fall on our Enemies.

II. Of the Brumal Ingress.

By the *Caroline Tables*, this Quarter commenced on the 10th Day of *Decemb*, last, 22 Minuits past Mid-night, precisely, and it continues the whole time the *Sun* Transits the Signs *Capricornus*, *Aquarius* and *Pisces*. At the Ingress, about 5 Degr. of the Sign *Cancer* Culminates, and 3 Degr. of *Libra* Ascends the *Horizon*; all the Erraricks, except *Mars*, are under the Earth, and for the most part aspecting each other with smiling Rays, nay, the whole Quarter in general does not afford us any violent or hostile Configurations. The most pernicious Aspect, during the Winter Season, as to Mundane Affairs, either Foreign or Domestick, is the *Quartile* of the *Sun* and *Mars*, from Cardinal Signs just at the Ingress. The Angles are all possessed by active Parts of Heaven, which, together with the pacifick and benevolent Rays of the Cœlestial Bodies, do naturally signifie, That the People of the World, even from the lofty Cedar to the poor Shrub, are active as well as willing for Peace and Tranquility; and not only to stop the Current

OBSERVATIONS, 1698.

of Confusion, and the Destructions of these Nations, but likewise to cement the Breaches, and compose the Differences and Disagreements in the Councils and Managements of the Affairs of Europe, it being a Season more for Contemplation than besieging of Castles, and burning of Towns. Albeit, in the midst of these Considerations, some violent and hot-spirited Persons will cause many Debates and Contentions, which may obstruct our Good for a time; yet, so as not to hinder the Subjects true Obedience to our Sovereign, or to frustrate the Welfare and Prosperity of the Kingdom. When the Coelestials agree, there is much probability that Mankind may do the like, for from good Consultations spring as good Resolutions. If the long-desired Peace (between the *Confederate Princes* and the *Tyrant of France*) be not concluded before this Winter Quarter, (as at the present Writing hereof it is not) the present impending Influences will contribute to that great Affair —. This Winter Quarter in general will be Wet and Sickly, attended with great Rains, some Snow, but not much Frost; as also with Sickness or Mortality of some illustrious Persons of the first Magnitude, Rheums in the Eyes, Colds, Coughs, Shortness of Breath, Convulsions, Lithergies, and such like Diseases, as have their Original from Phlegm and Crudities.

III. Of the Vernal Ingress.

This most delightful Season always begins at that Moment the glorious Sun salutes the first *Punctum* of the Coelestial Ram, which as the *Caroline Tables* exhibit, is this Year *March 10th*, 5 Minutes past 2 of the Clock in the Morning, exactly. This pleasant Season continues all the time the Sun passes the Signs *Aries*, *Taurus* and *Gemini*. At this Revolution we have the 27 Degr. 2 Ascending, and 3 Degr. in Culminating the Mid-heaven; *Saturn* in the 2d Angle strong in Time to *Mars*; *Jupiter* in the 11th Retrograde; *Mars* Retrograde in the 6th in Opposition to the Sun; *Venus* in her Exaltation intercepted in the 2d, casting her benevolent Rays to Υ ; the Moon in the 7th in her domal Dignity, separating from the Quartile of *Mars*, and applying by a trigonal Beam to both the Fortunes, *Jupiter* and *Venus*. The Position in general is Calm and Harmonious, God grant it may produce as harmonious and calm Effects, yet this glorious Quarter affords us a great many rustling Configurations, and hostile Beams of the Coelestial Bodies, which

OBSERVATIONS, 1698.

will mightily abate the afore-said pleasant Harmony. The *Opposition* of the *Sun* and *Mars*, is the most remarkable Aspect of the whole Scheme; and will have the greatest share as to Evil, in the Effects of the Spring Quarter. At the *Brumal* Ingress *Mars* was in *Quadrat* to the *Sun*; at this Revolution he afflicts him by an *hostile Opposition*, which, with that long and tedious Transit of that fiery Star, through the Sign *Libra*, will be of the greatest Concern to the publick Affairs, and general Transactions of *Europe*, especially to the Kingdoms and Places under the Sign *Aries*; besides, it seems as if the Almighty, had in particular, drawn the Sword of his Wrath, and Indignation, against sundry great Persons, on the Land of the Living. This fiery Star began this his unusual Transit *Decemb. 29th*, 1697, and continues in the Sign *Libra*, direct and Retrograde till the 26th of *July*, 1698, only in *April* he makes a short step into the Sign *Virgo*. Such uncommon Transits of this angry Star, with his *quadrat* and *opposite* Beams to the *Sun*, at Both Ingresses, must needs leave great Impressions of his evil Influence, and fiery Atoms, on Persons of all Qualities, inhabiting the Kingdoms, Cities, and Places under the afore-said Signs. The Position of *Mars* in the 9th, threatens our Merchants with Shipwreck, and Losses by violent Storms as well as Pyrates. The 9th also is the Mansion of Piety and Religion; and the Presents of *Mars* in that Mansion may occasion some change in Religion, or excite *Heresie*, or some strange Opinion in the World; which Judgment seems to be confirmed by the impending Influence of the three *quadrat* fixed Aspects of the Superiours: *Saturn* and *Jupiter*, the Effects of whose late *Conjunctions*, *Quadratures*, and *Oppositions*, the *Ethiopi* especially, have for many Years been labouring under, and will be more or less till their next great *Conjunction* in *May*, 1702. However, we find *Saturn*, the Lord of our Substances, strong in *Tribus* to *Mars*, Lord of the 9th, the Mansion of Trade, and the *Moon* also strong and Angular in good Rays to both the Fortunes, and therefore I judge, That the People of *England* in general, will not only live in Union, and be Obedient to their Superiors, but also be a Healthy and Flourishing People; and that the whole Trade of the Nation, both by Sea and Land, will be bravely revived, so that in a short Season, we shall as well be capable of surmounting all our late Difficulties and Calamities, as be able to Cope with our greatest Enemies.

OBSERVATIONS, 1698.

IV. Of the Aestival Ingress.

This Summer Quarter the absolute *Mater*, and *Copia Nutrix*, begins *June* the 11th, 23 Minuits after 2 in the Morning, at which time we find 3 Degr. of ∞ on the Mid-heaven, and 6 Degr. of Π Ascending, η in ∞ R in the 10th in \square to R \mathcal{U} in the 6th; the \odot and \odot in δ on the Cusp of the 2d; δ yet in ∞ in the 5th, in \square to the \odot ; the \mathcal{D} from the δ of \mathcal{U} to the \ast of δ , and \odot in \triangle to \mathcal{U} , but all subterranean. The Aspects at this Position are promiscuous, partly Good and partly Evil; but the Good is the *major*, and that comprehends the *minor*, and therefore as the Scheme of the Ingress produces not any destructive Rays, we have great Hopes, according to Natural Causes, that this Kingdom, and consequently the other parts of *Europe*, will once more enjoy the great Blessings of PEACE and PLENTY. *Celi Enarrant Gloriam Dei.*

V. Of the Autumnal Ingress.

This Ingress commences *Sept.* the 12th, 20 Minuits past 4 in the Afternoon. Here 9 Degr. Culminates, and 14 Degr. ∞ Ascends. At this Position δ is in \ast to the \odot , η strong in the Ascendant, in \triangle to the \odot , and \ast to δ , which do naturally Presage PEACE, HEALTH, and PROSPERITY, (the only Tokens of the Almighty's Favour;) but being limited, I cannot expatiate or enlarge my Astrological Judgments on this Affair.

Lastly, As I am a Professor of *PHYSICK*, I signify to all Persons labouring under any dangerous and stubborn *Maladies*, That I am sufficiently stored with choice and *wholesome Remedies*, honestly and faithfully prepared; without Adulteration; and have also (by my own hand, through many Years experience) fitted them for the cure of most Diseases, and Defects curable, incident to the Bodies of Men, Women, and Children; namely, the *SCURVY*, Cholick, Agues, Dropsies, Feavers, Coughs, Gripping in the Guts, Chin-coughs, Worms, Jaundice, Rickets, Bloody-flux, Itch, Vomiting, Convulsion-fits, Looseness, Giddiness, Swimming in the Head, Melancholly, Consumptions, Cold and Foul Stomacks, (which causes many Diseases) Stone, or Gravel in the Kidneys, Rheumatism, or Pains and Weakness in the Limbs, Green-sickness, Vapours, and other Diseases peculiar to Women, the Gonorrhœa, or Running of the *REINS*,

as also *CLAPS*, *French P O X*, and their *Symptoms*, *Swellings*, *Ulcers*, *Scabs*, and the like : Giving ease and rest when other means have failed. I bless God, I speak it without boasting or ostentation, That many *hundreds* of the *City* and *Suburbs* of *London*, and *Towns* adjacent, have been cured of deplorable Diseases by my Advice and Medicines : Wherefore I emit this Admonition, That all Persons having occasion, either in *City* or *Country*, many participate of the Power and Efficacy of my many Years experienced *Medicaments*, being designed and published for a Universal Good. The Vertues of four or five of my Medicines follow :

I. My *Family Pills*. The reason of the publication of these *Family Pills*, is not only for Variety sake, but also to oblige such Persons that may be tederr'd from taking my *Cordial Pills*, because of their sometimes vomiting Operation. These vomit not any, unless the *Sick's* Stomack be foul, or much obstructed, (there being not the least Grain of any *Emerick Ingredient* in the whole composition) notwithstanding their efficacy is inferiour to my *Cordial Pills*, in extirpating chronicall and difficult Maladies. However, as to their Virtues, I only say what I know by experience, proposing them as a General Remedy, as far as Purging is requisite against most Diseases, in which they have performed their Office with as great ease and safety, and in as short time as can in reason be expected, having oftentimes in a Month, three Weeks, yea, in fourteen Days time, and sometimes less, cured very deplorable Diseases. They are infallibly good in the Cure of the *SCORVY*, *Dropsie*, *Jaundice*, *Sciatica*, *Agues*, *Convulsions*, *Apoplexy*, *Melancholly*, *Rheums* in the *Eyes*, *Head-ach*, *Giddiness* in the *Head*, *Sleepy-evil*, *Dulness* of *Hearing*, *Dimness* of *Sight*, *Stinking-breath*, *Vomiting*, *Pains* in the *Stomach*, *Liver*, *Spleen*, *Gripping* of the *Breast*, *Bowels*, or *Joynts*. These *Family Pills* open *Obstructions* of both *Reins* and *Bladder*, cure the *Green-sickness*, *Barrenness*, help *Fits* of the *Mother*, and other Diseases peculiar to *Women*, quicken the Senses, purifie, cleanse and sweeten the *Blood*, resist *Putrefaction*, and *Corruption* of the *Humours* and Diseases thence proceeding, afflicting the *Head*, *Liver*, *Spleen*, *Gall*, *Stomach*, *Reins*, *Blader*, *Joynts*. These *Pills* are excellent against the *Cholick*, *Shortness* of *Breath*, *Coughs*, *Colds*, *Rheums*, or *Distillations*, as also *Vapours*, *Risings*, *Gnawings*, *Clogings*, *Stuffings*, or *Illness* at *Stomach*, expel *Wind*, and speedily cure the *Gripping* of the *Guts*. They are esteemed

Famous

Ratious Pills to Purge the Body after *Pills of Sickness*, or excess of *Drinking*, or before Letting of Blood, and for such to take who drink *Tunbridge, Epsom, Islington*, or other Waters. They retain their Virtues several Years, put up in Tin Boxes: The whole Box contains 35 Pills, price 3 s. The half Box 18 Pills, price 1 s. 6 d.

II. My *Cordial Pills*, are both famous and excellent in assisting and fortifying decaying Nature; for whatever destructive or morbidick Matter lurks in the Body of Man, these Pills will soon drive it out, and in its place render the Body healthful, having been so effectual in curing all manner of *Suiferts*, *bad Digestions*, *Gripping in the Guts*, *Dropsie*, *Green-sickness*, *extream Pains of the Gout*, *exulceration of the Kidneys*, *Head-aches*, *Convulsion-fits*, *Fevers*, *Leprosie*, *difficulty of Breathing*, *Pain of the Stomach*, &c. and for the *SCURVY* they are the best Pills in the World. These Pills are famous for resisting all *Foulness* and *Infection* in the Act of Generation, mundifie and cleanse both Blood and Skin, restore and increase Beauty, make Old Age comely, and the Complexions of all Persons *Chiearful* and *Sanguine*; scarce a Malady offending from Head to Foot, but these Pills (with God's permission) will be found very assisting. These Pills are also famous for lasting, they will not corrupt, (if you keep them from moisture) though kept an Hundred Years, and that no Drug-medicine will do; wherefore they are serviceable for those that sail to the *East* or *West Indies*; for some that go such long Voyages, miserably perish for want of so choice a Medicament. These Pills are the cheapest, considering their Goodness, that ever Man used, standing Centinel in the Body, nor admitting Nature's Enemy to enter; for as they are composed of the best Minerals, so they cannot but be the best of Medicines, much transcending any Medicament of its designation and intencion. These *Cordial Pills*, taken at the beginning of Diseases, will, under God, be a means, by their salutiferous and friendly Operation, to save many a Pound, and prevent the Sick of being tortured with violent Vomits, Salivation, Blisters, Issues, Cuppings, excessive Blooding, and the like; for really the exact preserving of Health consists not in such practice, but by such a Medicament that is able, by its purity, and noble preparation, to pacifie the enraged parts of Man. *English* and *Country-men*, embrace these Pills as Jewels, they will be found of more worth than a thousand ill-prepared incongruous Medicines,

As the Pills are beneficial for those that go to Sea, so they are for those that live in the Country, remote from able Physicians: Therefore, I advise all such not to be wanting of these Pills in their Houses, being in a manner Physick upon all occasions, and for that reason (God willing) I will be well furnished therewith. *The Box contains 18 Pills, Price 18d.*
